

# CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: **PC5383X** Est. Installation Time: **less than 15 mins**

**Audi & VW OE: 1J0 819 644, 1J0 819 644 A**

The Cabin air filter is located in front of the windshield under the cowl vent screen

- Open the hood
- If you see four screws securing the cowl, use a Phillips-head screwdriver and remove the four Phillips-head screws that secure the filter housing cover to the cowling. If no screws are present, you can just simply lift the passenger side cowl enough to see the cabin filter housing
- Pull the cover toward the front of the vehicle to remove it
- Unlatch left and right clips at the front edge of the filter frame
- Pull the filter and frame out of the housing together
- Remove the old filter from the frame, taking note of the air flow arrow indicator on the side of the old filter
- Replace the rest of the assembly by reversing the removal procedure

This is only a guide and may not be for exact model. See Owner's manual and/or local mechanic for exact instructions for the particular model.
